The Song of the Cradle.

Bye, bye! Hope rises high;
There's a sweet little cradle hung up in the sky;
A dear little life that is coming to bless;
Two soft, chubby hands that will pat and caress;
A pure little soul winging down from above;
A darling to care for, a child to love.

One of the grandest agencies which enlightened Science has discovered to relieve motherhood from excessive suffering is the "Favorite Prescription" devised by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y.

This wonderful "Prescription" imbues the entire nervous system with natural, healthy vitality; gives elastic vigor to the delicate organism specially concerned in motherhood, and makes the coming of baby entirely free from danger and almost free from pain.

"I wish to state that I have used Doctor Pierce's Favorite Prescription with very good results," writes Mrs. Katie M. Annis, of Hudson, New Hampshire. "Had been in poor health for over four years and had been twice in the hospital. My husband brought some of your 'Favorite Prescription,' and it has carried me easily through my last two confinements. We are now blessed with two healthy children, and I am sure your medicine has done me more good than all the other treatment I have ever received."

BAD HEADACHES generally arise from bad stomachs. Foul breath, bitter taste, coated tongue, sour eructations or belching of gas, are common symptoms though not all present in every case. To cure, take small doses, only one or two each day, of old Dr. Pierce's Pleasant Pellets, the Original Little Liver Pills, first put up by him over 40 years ago. One or two a laxative, three or four cathartic.

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WEAK HEARTS

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol

Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.
MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.
D. KAUBLE, Nevada, O.

DEMANDS OF MUTINEERS.

A dispatch from Theodosia, Crimea, says: Summoned by the Kniaz Potemkin representatives of the town council went on board the battleship and were received in the admiral's cabin by the commission commanding her.

The commission demanded the delivery of 500 tons of coal and provisions of various kinds within twenty-four hours, and threatened that in the event of noncompliance after due warning to the inhabitants the town would be bombarded.

The commission also proposed that the mayor should transmit to the population a proclamation demanding the termination of the war, a convocation of zemstvos, &c.

Learning of these demands many inhabitants fled the town. The workmen insisted that the demands be granted.

A special meeting of the municipal council was called and the council consented to deliver the provisions, but refused to comply with the demand for coal for the reason that the town had none.

The mutineers yesterday formally raised the standard of rebellion and issued the following declaration:

"The crew of the Kniaz Potemkin notify the foreign powers that the decisive struggle has begun against the Russian government. We consider it to be our duty to declare that we guarantee the complete inviolability of foreign ships navigating the Black Sea, as well as the inviolability of foreign ports."

A dispatch from St. Petersburg dated at 2:15 this morning says that while no official confirmation is obtainable it is confidently asserted that the admiralty has received news that the Kniaz Potemkin, after shipping coal, provisions, and medicine, is again at large in the Black Sea, and that her destination is unknown.

Whether the report of the sailing of the battle-ship be true or not, the crew took a remarkable step yesterday, when, with all the solemnity of a provisional government, it issued a manifesto addressed to the powers announcing that civil war had been begun against the existing regime in Russia, and pledged the inviolability of foreign shipping and foreign ports.

This action doubtless was taken to quiet the apprehension of foreign powers and to leave no excuse for the sending of warships through the Dardanelles to effect the capture of the battle ship, which until now Russia's Black Sea fleet has not dared to attempt. It is considered a shrewd move on the part of the mutineers, and stamps the commander of the crew as a leader far above the class of the ordinary sailor, and strengthens the opinion that he is not a member of the original crew, but one of the revolutionaries who went on board at Odessa.

The issuance of the manifesto lends a certain dignity to the mutiny, and proves that the crew and their commander have no desire that the world should believe them to be mere outlaws, but that they should be looked upon as men seriously raising the standard of revolution.

According to a rumor the ship's strong box contained $375,000, and the mutineers would therefore be well supplied with money.

In circles closely in touch with the revolutionists it is regarded as a foregone conclusion that the commander of the Kniaz Potemkin, knowing the situation in the Caucasus will head for Poti or Batoum, where the revolutionists are exceedingly strong, in the hope of producing a general rising. With the authorities in the Caucasus almost powerless to prevent it, such a contingency is by no means impossible.

Killed by Explosion.

By an explosion in the Tidwwater coal mine, at Vivian, twenty-two miles west of Bluefield, W. Va., yesterday, nine miners, all of whom were Italians, were injured, and two of them died later in the hospital, while three more are in a precarious condition, with slight chance of recovery. All of the men were burned badly.

The explosion occurred about 8:30 o'clock yesterday morning. The men had just begun entering the mine, and those injured represented all that were in the mines at the time of the explosion. They were rescued with but little difficulty.

Mine officials assert that the explosion was caused by a very heavy shock in operation, and that dust ignited. The Tidewater mine, however, is below the Elkhorn river bed, and outsiders familiar with the mine doubt the dust-ignition theory.

Found a Cure for Dyspepsia.

Mrs. S. Lindsay, of Fort William, Ontario, Canada, who was suffering quite a number of years from dyspepsia and great pains in the stomach, was advised by her druggist to take Chamberlain's Stomach and Liver Tablets. She did so and says, "I find that they have done me a great deal of good. I have never had any suffering since I began using them." If troubled with dyspepsia or indigestion why not take these Tablets, get well and stay well? For sale by Gibson & Timberman and W. F. Creighton & Co.

Storms in Europe.

Serious damage was caused in Milan, Italy, by a severe storm which resulted in the killing of one person and the injuring of thirty. Dozens of trees were uprooted, telegraph wires broken, and the railroad service greatly interrupted. The statue of St. Hypolite on the famous cathedral was thrown from its niche. The walls of the cathedral were threatened and the crypt flooded. Great damage was caused in the suburbs, especially at Musocco, where five persons were killed and many injured, seven fatally.

Thunderstorms with gales of unusual violence accompanied by hailstones, visited northern and central France yesterday. Two men were killed at Angers, where enormous damage was done to the crops. Near Orleans eighty houses were razed and many persons were injured. In the environs of Lyons and Chambery the crops were ruined.

Attacked by Negroes.

J. R. Turner, a well-known young man of Newport News was terribly beaten and probably fatally injured by a crowd of negroes on the Bay Shore branch of the Newport News and Old Point Railway early yesterday morning. Turner was returning to the city from Buckroe Beach, where a great crowd of people from all parts of the Peninsula had gathered to spend the Fourth. By mistake, the young man boarded the Bay Shore car, which carries negroes to what is known as "Negro Buckroe" He quarreled with a negro and was attacked by a crowd of the latter's companions. One of the negroes used a razor, and Turner was badly cut about the arms and legs. He was then thrown from the car to the ground, where he lay until he was picked up by employes of the railway company. He is now in Dixie Hospital, Hampton, in a critical condition.

Furious Fighting.

"For seven years," writes Geo. W. Hoffman, of Harper, Wash., "I had a bitter battle, with chronic stomach and liver trouble, but at last I won and by the use of Electric Bitters. In unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine." Sold, under guarantee to do the same for you, by E. S. Leadbeater & Sons, druggist, at 50c. a bottle. Try them today.

Alexandria Gazette AND VIRGINIA ADVERTISER

THURSDAY EVENING, JULY 6, 1905.

FROM PRESENT indications Russia desires peace with Japan, provided the latter country shows any disposition to be reasonable in its demands. All well-disposed people want peace, as there is a perceptible tendency toward disorder in several sections. Should present conditions continue another year there is no telling what might result. The Russian autocracy is being menaced more and more every day, and should the conflict with Japan be prolonged the Czar will sooner or later be brought to realize that the revolutionary element will endeavor to end the war whether it meets with his approbation or not. So long as the conflict lasts the uprising in his domains will become more pronounced, and this appetite for disorder may assume the proportions of an epidemic. There is a wave of discontent in many quarters. Friction between Germany and France and England has been temporarily allayed, but Austria and Hungary are now restive, as well as Sweden and Norway, while attempts are being made by the Mahometans to bring on a religious war. Recent events in the Black Sea show the present storm centre is in that vicinity. Conditions show no improvement, and the Euxine may become the theatre of momentous events should things continue as they are much longer.

THE NATIONAL ASSOCIATION of Catholic Women, known as the Daughters of the Faith, has prepared a manual for the use of its members in practicing social ostracism of divorced persons. The manual proclaims that society is on the verge of moral ruin because of its tolerance of divorce, and takes the ground that those who do socially tolerate divorce are "moral participants not alone in the sin but in the evils that follow." The manual contains two fundamental rules; first, that the Catholic divorcee who remarries must be socially ostracised, and, second, that such Protestant unions as are adulterous should be treated the same as the Catholic divorcee. Particular directions are given as to the proper course of avoiding contact with the divorced. For instance, an invitation is to be declined when a divorcee is to be the guest of honor. But if a member finds herself unexpectedly in the company of one divorced, charity forbids her to draw attention to the fact before others. This manual has been prepared in view or the approbation of the Pope.

IN AN interview in Boston today Kang Yu Wei, of Canton, China, president of the Chinese Reform Association, and an intimate adviser of the young Chinese emperor during the latter's brief season of power, said: "President Roosevelt's recent action relaxing in some measure the rigid enforcement of the Chinese exclusion act is by no means satisfactory to the people. They are rapidly becoming more and more enlightened, and will insist upon being treated exactly in the same manner as the most favored nations, or the boycott which has been declared against American goods will spread and be rigidly enforced over the entire Chinese empire." Many people are of the opinion that this country will lose more from a Chinese boycott than it can make by the enforcement of Chinese exclusion law.

ACCORDING to dispatches received by the Chicago Record-Herald from 150 of the principal cities of the United States, 36 people were killed and 1,677 injured by explosions of firecratkers, firearms, gunpowder and toy pistols on the Fourth of July. As a result of the thunderous celebration of Independence Day, hundreds of patients in Chicago's hospitals were subjected to nervous shocks that may eventually result seriously for the sufferers. In many cases it was necessary to call upon the police to disperse crowds around the hospitals. It remains for the people of a civilized country to say how much longer such precedures are to be tolerated.

A PLAN which it is hoped will put an end to the dearth of labor in the south and west is about to be carried out by the National Civic Federation, the institution of which August Belmont is president, and Samuel Gompers first vice-president. It is the intention of this organization to endeavor to regulate the immigrants into the United States, to counteract the crowding of immigrants into the great cities and facilitate the distribution of them throughout districts in the west and south where labor is scarce and work plentiful. It is hoped that the effects of the federation will not miss carry.

THE GROWING deficit in the treasury is causing the administation some concern and many theories are advanced as to methods of meeting the deficit, which for the year just ended was over $24,000,000 and a conservative estimate would make the shortage $40,000,000 for the fiscal year just beginning. Some suggest an increase in the liquor and beer tax, others want a stamp tax, while the more practical declare that a reduction in the tariff would induce more imports, and consequently larger revenues. Those who suggest a reduction in expenditures are regarded as old fogies!

THE HOMECOMING of General Leonard Wood and the going out to the Philippines of Secretary Taft, are believed by many to indicate that a crisis in the Philippines affairs cannot much longer be delayed. Trouble has been brewing in the insular possessions for more than a year. There is friction between Governor Wright and the military officers. Apparently, General Wood has become so seriously involved that his need of surgical attention has been a most welcome excuse for coming home. Enemies of Wood believe he has come so near the line of a break with his friend, the President, that the general believes his interests need his personal attention. His chief interest is to keep President Roosevelt in the notion of making him lieutenant general and chief of staff in succession to General Corbin.

THE RICHMOND papers say that the socialist party of Virginia celebrated the Fourth of July by holding a State convention with delegates present from Newport News, Portsmouth, Roanoke and Richmond and nominating a State ticket. It is hoped that Virginia will prove barren soil for socialists and Alexandria is to be congratulated for not being represented at the "convention." Socialists should be severely frowned upon by conservative Virginians, for it is well known that it is a short step from socialism to anarchy.

THE statement is made in well-informed quarters that the United States Steel Corporation is earning now at the rate of $10,000,000 a month net. Is there any wonder that this corporation is opposed to a revision of the tariff?

THE WEATHER which has prevailed in this neighborhood for some time is very much like that during the wet season in the tropics.

From Washington.

Washington, D. C., July 6.

In common with Marryland and Virginia the District of Columbia last night encountered a terrific rainstorm that at times reached the violence of a veritable cloudburst. Beginning shortly after seven o'clock rain fell steadly for four hours, the precipitation registered at the Weather Bureau here showing a fall of 3.69 inches, which has been surpassed but twice in thirty-three years in Washington, and then the rainfall for twenty-four hours was coun[illegible] Street car service was entir[illegible] times during the [illegible] trenches filled [illegible] ban lines torn [illegible] and at a num[illegible] buried under [illegible] Rock Creek, [illegible] gives a name to [illegible] mous park, [illegible] its banks and the noted Blue [illegible] under water for long distance [illegible] slackened early this morning, [illegible] drizzle continued most of the day.

Writing to the State Department, Consul-General Guenther at Frankfort, Germany, advises that in the negotiation of future trade treaties this country insert "most favored freight rates" clauses, delegates to the International Economic Conference at Berlin having shown that by freight rate discrimination in Europe it was possible for one country to establish what amounts to a preferential tariff in favor of the products of one foreign country against another. The conclusions of the conference was that though interstate freight rates should be established and maintained through commercial treaties so as to insure fair treatment all around.

Secretary of the Treasury Shaw has bestowed upon Keeper William H. Gaskill, and eight surfmen of the Cape Lookout Life-Saving Station, Morehead City, N. C., gold medals in acknowledgement of the heroic worked performed by the crew February 9, 1905. On that date the schooner Sarah D. J. Hawson, during a screaming gale, grounded on Lookout Shoals, nine miles across boiling breakers from the station. Gaskill sighted the schooner at noon and immediately launched the life-boat. The crew reached the wreck at four o'clock, but was unable to get to windward and heave her a line until nine o'clock the next morning. The men beat one another all night to keep from freezing in the life-boat. The following day the captain and five sailors on the schooner were rescued, and the life-boat returned to the station after being out 28 hours, the longest on record. None of the men slept during that time, and the exporsure was dreadful. Secretary Shaw's personal letter to each man is highly complimentary. A gold medal has also been awarded Liuet. Henry Ulke, Revenue Cutter Gresham, for a gallant rescue in the East river, February 3, 1905, when Ulke went overboard and saved a man with ice running in the river and the temperature 4 degrees above zero.

It is reported here that ex-Secretary of War Root has indicated to the President his willingness to accept the position of Secretary of State.

The lifeless body of a white man, about 50 years old, who registered at the Engel Hotel as H. Hilman, of Baltimore, Md., was discovered this morning in the room to which he went yesterday soon after giving the clerk his name. There were no marks of identification upon his body, all papers and clews to his identity having evidently been destroyed before the act of suicide was committed. The porter detected the fumes of gas in the upper hall and upon investigation discovered the lifeless form of Hilman. The room was broken into, the windows and transom being tightly closed and covered with bed sheets.

The local grand jury today returned an indictment against Col. Orrin G. Staples, proprietor of the Riggs House, in this city, and Tracey L. Jeffords, a local attorney, alleging an attempt to defraud the government. It is charged that Col. Staples through the Treasurer of the Livestock Insurance Company presented a certificate of deposit of $100,000 to the Superintendent of Insurance showing that the Insurance Company had complied with the District regulations by having a capital of $100,000. The certificate of deposit was covered by a personal check of the Colonel's on the Columbian Bank. It later developed that the fund at that institution accredited to Staples only amounted to $4,000. Tracy L. Jeffords acted as the attorney for the insurance company.

He was at one time a millionaire, but gave away the bulk of his fortune. Recently he lost $300,000, the remainder of his money, after which his friends deserted him.

Boy Robs Till to Answer Prayers.

Pittsburg, July 6.—Hearing the congregation praying for money, Peter Tobin, 10 years old, robbed a till of $10 and turned it over to the Arthur Street Mission. The lad was in Juvenile Court yesterday afternoon. The $10 was returned and Peter turned over to his parents.

Wife Tried Suicide.

Mrs. Henry McLean was saved from suicide, in Norfolk, yesterday, by physicians who quickly tried a stomach pump. The woman is 22 years old, went there from King William county and is quite pretty. She went to the police headquarters to consult Captain Dalton, whom she knew, as to her husband, who, she alleged, had deserted her and an infant. Captain Dalton was not in the office at the time, and she went out and swallowed a tablet of bichloride of mercury. She was found lying on the pavement and physicians were hastily summoned. Meantime, her husband had been found. He came in a carriage, took the wife and the two became reconciled. They then went together for the baby, which had been left in charge of a neighbor.

The man left letters to his two sisters saying that he was compelled to take the action he did because his wife had left him. He signed one of the letters "J. W. Labell, the self murderer." The shooting took place in the house of Mary F. Gentry, at 203 Mayostreet.

An unexpected and extremely violent thunderstorm, accompanied by a rainfall of nearly two inches, prevailed in Norfolk and vicinity for an hour yesterday evening, and during that time lightning struck the Port Norfolk Baptist Church, the power house of the Portsmouth Electric Company, deranged all the electric motors in that city, killed some stock in the country, and damaged several houses. In Norfolk the streets in the lower part of the city were so deeply flooded that traffic was tied up for some time, and the produce market suffered very heavily.

Attempted to Kidnap Young Woman.

A bold attempt at kidnapping or assault was made on Miss Grace Nee, a pretty young woman of 20 years, before daylight in Wheeling, W. Va., yesterday morning. Two men gained entrance to her bedroom, seized and gagged her without disturbing the two other young ladies who slept in the same bed, and dragged her to the middle of the floor. A drug was evidently used, as the young woman remembers very little previous to finding herself in the middle of the floor. She struggled toward the bed and clutched her sister by the foot, awakening her. The sister screamed, and J. M. Nee, her father, who occupied an adjoining room, ran into the room and was struck a blow which fractured his nose. The two men, one of whom stood guard in the hall, then made their escape. Robbery was not the motive, as jewelry on the dressers in the room was not disturbed. Miss Nee's arms are badly bruised and her mouth is lacerated from the gag.

Blown Into a Lake.

Left for a moment by the nurse, a baby carriage in which was strapped an infant grandson of Mr. Huppel, a millionaire brewer, of Newburg, N. H., was swept by a sudden gust of wind down a steep enbankment into the lake of the Huppel estate and drowned yesterday. The nurse was returning to her charge, when she saw the carriage start, slowly at first, and of she tried to overtake it, screaming as she ran, a fresh gust of greater force added momentum which hurled the little vehicle over the crest and down the hill with great rapidity. The force of the descent carried the carriage far out into the lake, where it quickly sank before the eyes of the frantic nurse girl, whose cries summoned members of the Huppel household and workmen. No time was lost in dragging the lake, but when the carriage was recovered the child was dead and still securely strapped among its cushions.

Cloudburst Near Baltimore.

A cloudburst last night in the neighborhood of Timonium, Md., was followed by a terrific rainstorm, which flooded Baltimore county all along the Northern Central Railroad, swelling the streams and destroying bridges in the Green Spring, Western Run and Gunpowder valleys. The streams are feeders for Jones Falls, which runs through Baltimore, and this overflowed its walls on Gay street, the scene of the great flood of 1866. At 11 o'clock the water was within a few feet of the bridge, which is higher than the level of the street. The Falls overflowed, and in Harrison street at 11 o'clock people were out in boats from their second-story windows. Railway service between Baltimore and Washington was impeded this morning as a result of the rains.

Today's Telegraphic News

Conditions in Russia.

St. Petersburg, July 6.—There are indications of a threatened armed uprising in the Caucasus. Disturbances have been going on for some time, and it is feared that the trouble may culminate in a general outbreak.

Tiflis has been the scene of disorders, and the greatest excitement still prevails there. None of the newspapers appeared today and there is great danger of a riot at any moment.

St. Petersburg, July 6.—General Sakharoff, who resigned on Sunday as Secretary of War, has declined to become a member of the council of war, saying it is impossible for him to work advantageously under present conditions. The ministry of ways and communications has informed exporters of corn that cars on the Trans-Siberian railway will be placed at their disposal in the autumn. This has been interpreted to mean that the end of the war is in sight.

Odessa, Russia, July 6.—The sixty-seven leaders of the mutineers on the Georgi Pobeidenets, who were given up at the time the balance of the crew surrendered to the authorities, were sent to the prison at Kertch today. It is expected that all the men will be shot.

Vienna, Austria, July 6.—The Neieue Freie Presse says that the Czar has expressed to the Roumanian authorities his thanks for the manner in which the rebellious crew of the Kniaz Potemkin was received when the vessel put into the port of Kustenji. Disturbances are reported to have occurred in the town of Ismail in the Russian government of Bessarabia. The people are flying in numbers to escape from danger.

Theodosia, Crimea, July 6.—The majority of the inhabitants of this city have left the city, and it is feared that the mutineers on the Kniaz Potemkin will carry out their threat to fire on the town this evening. Only the troops and police officials are remaining here.

The desertion of the town by the people is in accordance with the orders of the authorities. The municipal authorities at first agreed to the demands of the mutineers that they should be supplied with provisions but no coal was promised. Later, orders were received from St. Petersburg, to deny all kinds of provisions to the Kniaz Potemkin and the local officials were advised to urge the people to leave the city if necessary, to prevent loss of life in case the threat to bombard the town should be carried out.

The town authorities complied with the orders from St. Petersburg, and no supplies were given to the mutineers. A warning to the people to leave the city was also given by the municipal officers. The time fixed by the mutineers within which supplies should be forthcoming expressed that the mutineers will fulfil their threats this evening.

During the early hour of the day the town was in terror owing to the presence of the mutinous battleship in the harbor and the threat to bombard the place. The demands made by the mutineers for food and coal, and calling on the Mayor to issue a proclamation demanding the termination of the war and the calling of a representative assembly greatly frightened the people. When the request for provisions was refused, the people hurriedly left the town, without waiting to see what course the mutineers would pursue.

London, July 6.—It is rumored here that forty-five of the Bobiedonosteff mutineers who refused to renew their allegiance to the Czar have been shot in the Olchakoff fortress.

President Roosevelt.

New York, July 6.—President Roosevelt arrived in Jersey City a few minutes after nine o'clock this morning from Cleveland, O., where he had gone to attend the funeral of John Hay. The trip home was without unusual incident. Crowds met the President's train at various stations during the afternoon and evening, but they could not pursuade the President to give them one of his characteristic talks. The President spent but a few minutes in Jersey City. He and his party were conducted aboard of the tug Lancaster, which carried them up the East river to Long Island City, where the President, arriving there at 10:45 o'clock, boarded a train for Oyster Bay.

An announcement will be made some time tomorrow regarding the portfolio of State. Despite the many stories circulated to the effect that Elihu Root had declined the place it can be positively stated that that is not so. Mr. Root still has the offer under consideration and will give the President a definite answer tomorrow. Mr. Root left the President's party at Jersey City to go to his home in this city. He said he would make no statement regarding his intentions before tomorrow. It is believed that he will accept the position.

New York, July 6.—While Elihu Root absolutely declines to make any statement regarding his attitude on the tender of the portfolio of Secretary of State by President Roosevelt it can be stated on unquestioned authority that Mr. Root will make known his acceptance by tomorrow. Mr. Root is anxious to accept and make known his desires to those from whom he has received retainers, for legal advice and counsel. Mr. Root held several conferences this afternoon, looking to be relieved from his private legal engagements. Because of the nature of the tender there is no doubt that his hands will be freed and and his acceptance soon made public.

Killed by Explosion.

Uniontown, Pa., July 6.—Five men were killed and one injured in an explosion of dynamite today in the new mine of the Taylor Coal and Coke Company, on the Work farm, which is on the Redstone branch of the Pennsylvania just off Brownsville pile, and six miles west of Uniontown. The victims of the accident are all foreigners. The details of the accident have not yet been ascertained. The shaft in which the accident occurred was only recently sunk, and the explosion took place ninety feet below the surface of the earth. It is thought that dynamite, which was being used to sink the shaft, was being removed from the cage and that during the handling the explosion occurred.

The Baltimore Flood.

Baltimore, July 6.—While no lives were lost in the great torrent that swept Baltimore county and city last night, the damage done is estimated at $100,000. The waters have subsided and the work of removing the debris is proceeding rapidly.

Royal Arcanum Affairs.

New York, July 6.—Reports received from all over the country by the committee of nine, which was appointed by the convention of Long Island councils of the Royal Arcanum to work for the reconvening of the Supreme Council to reconsider the insurance rates which are to go into effect on October 1, next, insure that the supreme body will be reconvened. Michigan, Illinois, Massachusetts, Rhode Island, Connecticut, New Jersey and Pennsylvania have declared against the new rates, and will, it is asserted, instruct their representative to the Supreme Council to act with the New York representatives. The ten representatives of the fifteen accredited from the state of New York to the Supreme Council have pledged themselves to vote for the reconvening of that body. There are seventy-six representatives to the Supreme Council at the present time, each State having a representation in accordance with its membership in the order. Section 5 of Chapter 3 of the Supreme Council constitution says that before a special session of the Supreme Council shall be called, a majority of the representatives must sign a request for its assembly. The committee of nine has been working indefatigably to compel the reconvening of the Supreme Council and at a meeting of the committee last night Chairman Wm. McCabe announced that he had secured the pledges of ten representatives of this State to the Supreme Council to sign the reconvention request. Mr. McCabe also said that he shortly expected to secure the pledge from the remaining five. The committee resolved unanimously to request all the representatives to the Supreme Council irrespective of States to vote in demand of the reconvening of the Supreme Council.

The Texas Cyclone.

Dallas, Texas, July 6.—Reports of the loss of life and damage to property caused by the cyclone which swept through Montague county yesterday, are as yet meagre, owing to the wires being down. It is known, however, that fifty persons were killed and it is probable that when all the returns are in the death list will be fully one hundred. There are scores of injured, many of whom have not yet been found. The little towns were spared but scores of farm houses have been wiped away by the wind. The damage to crops and live stock will amount to many thousands of dollars. The tornado appeared to zigzag and to take in houses which would have been spared had the wind kept a straight course. A dispatch from Jacksboro, capital of Jacks county, Texas, says that a wind storm struck there yesterday destroying a large number of windmills, several houses and injuring half a dozen persons. All the injured, with the exception of Mrs. Travis Calhoun, it is believed will recover.

Girls' Gym Class in Boardwalk Exhibit.

Asbury Park, July 6.—Physical culture was demonstrated before an immense crowd by twenty-one young women, members of the senior and junior classes of the New Haven Normal School of Gymnastics, on the boardwalk yesterday afternoon. There were thirteen brunettes, six neutrals and two pronounced blondes in the class. The girls wore black and blue gymnasium suits. The running stunts were especially effective, In jumping chairs some of them cheated outrageously, merely placing one foot on the chair and going over with the other. There was a horizontal bar act that carried off the palm. The girls stood in a row with a long pole held partly aloft, and at the command of the demonstrator the centre girl balanced on the pole and turned a somersault.

War Not Anticipated.

Manchester, Eng., July 6.—The Guardian states that it is informed authoritatively that the mobilization of troops on the part of Norway and Sweden, which it was reported indicated that hostilities would soon begin between the two countries, is simply for the ordinary summer manoeuvres. Norway has all points along the frontier at which Swedish troops could make their way into Norway, guarded, and is prepared to defend herself in case Sweden endeavors to use force to compel her to renew the former relations by which the joint empire was maintained. The proposal which has been made that the Riksdag shall vote one hundred million kroner for war purposes emanated from reactionaries in the upper house of the Riksdag, which is composed largely of members of the old Swedish nobility.

Head-on Collision.

Fitchburg, Mass., July 6.—In a deep, narrow cut, a few hundred feet west of Wachusett station, two and one-half miles west of Fitchburg Centre, on the Fitchburg division of the Boston & Maine Railroad, two locomotives, each drawing a heavy freight train, came together head-on with a crash that was heard a mile away, late yesterday. The engineers of both trains and the brakeman of the eastbound train were instantly killed and buried under the wreck. The fireman of the eastbound locomotive and a brakeman of the westbound train were injured.

Will Not Molest Neutral Vessels.

London, July 6.—The Pall Mall Gazette says it has reason to believe that the government has received assurances that orders of the Czar to the cruisers in the far East, forbidding interference with the vessels of neutral powers, have been communicated to the commanders of the converted cruisers Rion and Dnieper. It is not expected that any further outrages against neutral vessels will be committed in the far East.

Transfer of Paul Jones's Remains.

Paris, July 6.—The ceremonies in connection with the formal transfer to the United States through its special ambassadors of the remains of Admiral John Paul Jones, took place here this afternoon.

At 3:30 funeral services for the former admiral were held in the Protestant Episcopal Church of the Holy Trinity on the avenue de L'Alma. The church was filled to overflowing with French officials in full uniform, the American mission to receive the body and prominent residents of the American colony in Paris. Ambassador and Mrs. McCormick and Consul General and Mrs. Gowdy and the members of the Embassy and Consulate also attended.

Mounted republican guardsmen formed the guard of honor about the hearse, and behind them marched the French troops. Then came the sailors from the American warships, which were sent to convey the remains of the first great American naval commander to the United States. The coffin was removed to a special train in the Invalides station, in which the American party will make the trip to Cherbourg, starting at 10 o'clock tonight.

Paris, July 6.—The 500 sailors of the American warships at Cherbourg for the escort to the body of Paul Jones arrived at the Invalides station at noon. Their arrival was made the occasion for a military display by the French. A company of infantry was drawn up at the station and hundreds of people gathered in the vicinity. As the American sailors and their officers marched out of station the people greeted them with cheers. A French military band greeted the visitors with "Hail Columbia." The sailors were lined up in the streets and stood at present arms while the band played the Marseillaise. They then marched to the Hotel Invalides, where luncheon was served, and then went into camp with the French soldiers while waiting for the ceremonies in connection with the turning over of the remains of the great American naval hero to the special mission designated by the American government to receive them to begin.

Leander Crew Again Victorious.

Henley, Eng., July 6.—In the final heat of the royal Henley regatta for the grand challenge cup the Leander crew defeated the Belgians.

The best time made during the regatta for the course was made during this morning's race, the Leanders covering the distance in six minutes and 56 seconds. This is within five seconds of the record. The Belgian crew put up a game fight but could not compete with their rivals and finished two lengths and a half behind Leander.

The Belgians were unfortunate at the very start in that one of the rowers caught a crab at the second stroke—Begor, second stroke. Before the crew recovered from this Leander had gained a length and the Belgians were not able to make up the lost distance.

In the final heat for the diamond sculls Kelly defeated Blackstaffe by several lengths. Kelly established a new record for the course of 8 minutes and 10 seconds.

Christian Endeavorers.

Baltimore, July 6.—Today the Christian Endeavor delegates are visiting the local penal institutions under the guidance of Rev. J. J. Burkhard, Superintendent of the Maryland Prisoners' Aid Society. Last night 20,000 voices united in a monster praise service, with much enthusiasm. The amusing discovery was made that the ice water which the delegates have been drinking was very strongly flavored with a Kentucky Bourbon. An investigation was made, when it was learned that the barrels containing the water had been formerly filled with whisky. They were quickly changed. Across the street from the armory is a saloon gaily decked with flags and bunting, but the bar keeper says "there's nothin doin." Today officers of all local and State unions are in conference.

Slashes Off Serpent's Head.

Shenandoah, Pa., July 6.—Tom Brennan, a volunteer fireman, on his farm at Brandonville, espied a black snake robbing a bird's nest of its featherless young ones. Brennan tried to dislodge it from the tree branch, when the snake quickly coiled itself about his body; but Brennan, who is an athlete, seized the snake by the neck with his left hand, and, drawing a huge clasp-knife from his pocket with his right hand, opened the blade with his teeth and cut off the serpent's head. The length of the snake was 7 feet 9 inches, and it was very thick. Brennan's body about the ribs is black and blue where the snake's coils tightened about him.

Frightful Mishap to Young Woman.

Chester, Pa., July 6.—Miss Elizabeth Ash, of No. 714 west Second street, was probably fatally injured Tuesday night through the carelessness of a foreigner who shot off a skyrocket. The rocket struck the young woman in the mouth and exploded, tearing away her right cheek and seriously burning her about the face. Should she survive, Miss Ash will be disfigured for life, but lockjaw and blood poisoning are feared. The flying rocket narrowly escaped several persons and Miss Florence Ash, a sister of the victim, fell in a swoon when her sister was injured.

Weather Probabilities.

For this section showers tonight and Friday; light southerly winds.

Heavy Rains.

The sultry weather of yesterday culminated early last night in a series of heavy rains, accompanied by considerable thunder and lightning. Toward the close of the day rain clouds gathered south of this city, where they emptied themselves. A fresh southeast breeze set in which was very refreshing. In the meantime dark clouds were forming

[illegible] of rain this morning [illegible] streets and choked [illegible] As is usual during heavy shot[illegible] Henry street north of Cameron was soon flooded and the water overflowed portions of the sidewalks. At the Fayette street depot the water rose to the axles of wagons and spread over the sidewalk on the north side of Cameron street between Henry and Fayette. Similar conditions prevailed at other points in the city.

The rains have caused some trouble to railroads centreing here. There was a washout at Burke's station, on the Southern Railway, but trains passed it on another track. There was also a washout on the Washington-Southern Railway north of Fredericksburg. All trains were more or less late in reaching this city this morning.

The electric railway between this city and Mount Vernon has also suffered somewhat. The draw of the Hunting creek bridge has been damaged and has interfered with the running of the electric cars.

The rainfall in Washington was very heavy, approaching a cloudburst. It is said that it was the most excessive rainfall in any one hour within the last twenty years. At the Weather Bureau it was stated that within a little more than an hour, beginning at 7:22, more rain fell than during any day of twenty-four hours, with three exceptions, in the past thirty-three years.

Juvenile Offenders.

Benjamin Allen, Malvin Mayhugh, and George Massey, white boys, who were arrested for entering houses, stealing door mats, breaking open chewing gum machines and committing other depredations, were brought before the Police Court at 5 o'clock yesterday evening. Willis Woodland, John Stuart and James Carter, colored lads, and a white boy named Ketland, who had been arrested, as parties to the offenses mentioned were also arraigned They had been taken in custody Monday night. Justice Caton determined to commit Allen and Mayhugh to the House of Correction, and announced that the others would meet with the same fate unless their parents came forward and administered corporal punishment on them at the station house, in the presence of the officers. Woodland's mother called at the police station about 6 o'clock and carried out the sentence. Massey, Ketland, Stuart, and Carter were held for like punishment.

Attempted Suicide.

About two o'clock this morning considerable excitement was caused on Fairfax street, between King and Cameron, by an attempt on the part of G. Henry Hodges, a saloonkeeper, to commit suicide by inhaling illuminating gas. He had entered a room, which he had made as tight as possible, and turned on the gas. Fortunately members of his household discovered what was going on and made a terrible outcry, awakening people throughout the neighborhood. A pistol was discharged about a square away by a man who desired to attract attention of the police, but the officers at the station house had heard the outcry and they were soon at the house. Hodges was taken from the room barely in time to save his life. A few months ago he was critically ill, so much so that physicians despaired of his life. He revived, however, but has not been restored to health, and it is supposed his rash act was superinduced by despondency.

Plans for New Steamer.

General Manager Callahan of the Norfolk and Washington Steamboat Company, has asked for bids for the construction of the new steel side-wheel steamer which the Norfolk and Washington company proposes to build during the coming winter. Plans and specifications for the new boat were placed in the hands of the Newport News Shipbuilding Company, the Harlin & Hollingsworth Company of Wilmington, Del., the Maryland Steel Company, at Sparrow's Point, Md., and the New York Shipbuilding Company, at Camden, N. J. The new steamer is to be 250 feet long and will be absolutely fireproof. Her hull and house inside and outside, are to be of steel, and no wood will be used in her construction. She will be a handsome boat and is to be used for daylight trips on the river and to Norfolk. The steamer is to cost about $250,000, and is to be ready for service about May 1 next.

Granted a Rehearing.

Richard C. Burnett, through his attorneys, Messrs. Machen and Moncure, has been granted a rehearing by Judge Barley of the Corporation Court on a motion for a new trial. The matter came up in the Corporation Court this morning. Burnett was recently convicted of selling liquor without license, and sentenced to pay a fine of $300 and serve twelve months in the city jail. He was released on bond in the sum of $2,000 pending an appeal to the Court of Appeals after a motion for a new trial had been overruled.

After arguments by Mr. L. H. Machen, one of the counsel for Burnett, and Commonwealth's Attorney Brent the motion was overruled by Judge Barley. Burnett is out on bail, a stay of execution of the sentence for thirty days having been previously granted pending an appeal.

R. E. Lee Camp of Confederate Veterans of this city has received an invitation to attend the Valley Reunion of Confederate Veterans to be held at Fisher's Hill near Strasburg, on August 5th. The reunion will be under the auspices of Stover Camp, No. 20.

Capture of Whalen.

As was stated yesterday, William [illegible] of this city, was arrested in [illegible]n late Tuesday night as he was in the act of boarding an electric train for this city. It was at first supposed that he was taken in custody for some offense committed in Washington, but this was not the case. As he was about to get on the train somebody told an officer that Whalen was wanted in Virginia for robbing a freight car at Manassas several months ago. After a policeman had taken him in charge Whalen attempted to break away, but the officer had anticipated the act and held on to him with a grip that the prisoner could not break. Whalen will be turned over to the Prince William authorities.

An attempt was made by an unknown individual late last night to rob Mr. C. S. Elliott's store, at the southeast corner of King and Pitt streets. The man was seen to enter the premises from the rear on Pitt street, when Private Watchman Genzberger blew a police whistle. The trespasser, when he heard the alarm, scaled the fence and escaped. Officers Bell, Mayhugh, Henderson, Smith and Nicholson repaired to the scene, but they were unable to intercept the thief.

Arrangements have been made to accommodate fully 80,000, and the estimate is that more than 100,000 will be here from Monday next until Sunday night.

Divorce Ends Romance.

Following a private hearing before a master in Philadelphia the suit for divorce brought by Charles W. Bailey, vice president of the Bailey, Banks & Biddle Company, against Mrs. Selina A. C. Bailey, on the grounds of desertion, has resulted in a decree for Mr. Bailey.

Their marriage, in 1900, followed a hunting accident in the Adirondacks, when both were wounded by a rifle shot.

Although Thomas W. Barlow, who represented Mr. Bailey, declines to make any statement in connection with the controversy, it is understood Mr. Bailey considers the decree of divorce given to him by Judge Audenried, in the Court of Common Pleas, No. 4, last Monday, sufficient vindication of his character, and that he will not press the suit for $100,000 instituted by him against his wife's brother, E. Holloway Coe, a New York millionaire, in January, 1904.

At that time Mr. Bailey charged that Coe had deliberately set up a plot to blacken his (Mr. Bailey's) character, the purpose being to persuade Mrs. Bailey that her husband was unworthy of her.

Coe was arrested and held under $25,000 bail, but the case never came to trial. This was subsequent to Mr. Bailey's application for divorce and to another suit for $50,000 against Coe, charging alienation of Mrs. Bailey's affections.

Russia Wants Peace.

Russia has formally signified to President Roosevelt her desire for a lasting peace, not only by the appointment of plenipotentiaries who will be accompanied by eminent experts, fully empowered to conclude a treaty subject only to the ratification of the respective governments, but as a final step has indicated her readiness to suspend hostilities. She has avoided formally asking for an armistice as a matter of pride, but under the circumstances Russia could hardly go further than she has. Japan, so far as known, has not yet indicated her attitude, or, if she has, Russia up to this afternoon has not been so informed. In diplomatic circles the most earnest hope is expressed that Japan will consent, both for the sake of avoiding further bloodshed in Manchuria and perhaps in order to prevent a catastrophe in Russia which may shake the Romanoff throne and appall the world with its horrors.

The Southern Planter for July has been received from its publishers in Richmond. Among its contents are well written articles: Reports on some experiments with alfalfa, inoculating legames, cotton seed meal as a fertilizer, fruit products in Virginia, cantaloupe growing in the south, the horse fly, rations for horses, sheep husbandry, the remedy for wasted lands in the South are creameries beneficial to farmers, turkey raising and etc.

Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas; "I hereby certify Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I than God for so valuable a medicine." For sale by Gibson & Timberman and W. F. AN ORDINANCE to provide for the grading, paving and curbing of Prince street from the east crossing of Fairfax street to the east crossing of Lee street, under certain conditions.

Section 1. Be it ordained by the City Council of Alexandria, Virginia, that the Committee on Streets is hereby authorized and directed to have Prince street, from the east crossing of Fairfax street to the east crossing of Lee street, with the exception as described in section 5 of this ordinance, graded and paved and to have said street, as above described, curbed in a good and substantial manner, under the supervision of the City Engineer, using for the paving vitrified brick on a six-inch concrete base, and for the curbing a six-inch granite curb set in concrete.

And the said Committee on Streets shall advertise for ten days, in some newspaper published in the City of Alexandria, and in other newspapers or publications should they deem it necessary, for proposals for materials, and they shall do said grading, paving and curbing by day labor, or if, in their opinion, the best interests of the City Council of Alexandria will be subserved thereby, by contract under bond, after advertisement as hereinbefore provided for materials.

Section 2. Be it further ordained that the said Committee on Streets shall not begin said work or purchase any of the materials, or let any contract pertaining to said work until the amount equivalent to two dollars and eighty cents ($2.80) per front foot for three fourths of the linear feet of property on said square has been voluntarily deposited with the City Treasurer for defraying a portion of the expense of said grading, paving and curbing.

The said deposits may be in cash or may be part cash and the balance in notes, as may be agreed upon by a majority of the Finance Committee of the City Council of Alexandria, the payment of said notes to be secured in a manner satisfactory to a majority of said committee.

Section 3. Be it further ordained that where property owners on said square have already set granite curb without cost to the City Council of Alexandria, which, in the judgment of the Committee on Streets and the City Engineer, is acceptable for this work, that such property owners shall deposit, before the commencement of said grading and paving, in cash or in notes as above set forth, the sum of two dollars thirty-two and one-half cents ($2.32½) per front foot for said grading and paving, less a rebate of one-half the value of the curb as set.

Section 4. Be it further ordained that where property owners on said square have set granite curb without cost to the City Council of Alexandria, which curb, in the judgment of the Committee on Streets and the City Engineer, is acceptable for this work, if reset in concrete, said property owners shall deposit before the commencement of said grading and paving, in cash or in notes as above set forth, the sum of two dollars thirty-two and one-half cents ($2.32½) per front foot for said grading and paving and for the resetting of curb, plus one-half the cost of setting said curb in concrete, and they will be allowed a rebate of one-half the value of the unset curb.

The estimates of value, rebates, etc., are to be made by the Committee on Streets and the City Engineer, in each individual case.

Section 5. Be it further ordained that no curb shall be set or reset, and that no grading or paving shall be done within ten (10) feet of the curb line in front of any property for which the proportionate expense hereinbefore mentioned shall not be deposited with the City Treasurer.

Section 6. Be it further ordained that as said grading, paving and curbing is being done the Auditor is authorized to draw warrants from time to time upon the Treasurer of this city in an amount not to exceed the sum of three thousand five hundred and fifty dollars ($3,550) to pay for said grading, paving and curbing, and a sufficient amount of money for such purpose, not to exceed three thousand five hundred and fifty dollars ($3,550), is hereby appropriated.

Section 7. This ordinance shall be in force from its passage.

IN MEMORIAM.

In loving memory of my dear husband, JAMES B. MARTIN, who died July 6, 1903, two years ago today.

The midnight stars are beaming,
Upon a silent grave,
Where sleepeth without dreaming,
The one we tried hard to save.

Heaven retaineth now the treasure,
Earth the lonely casket keeps,
And the sunbeams love to linger,
Where my darling Jimmie sleeps.

Gave the Sun Permission to Set.

"One of the odd things that I saw in a trip up the east coast of Africa was the permission given each day by one of the kings for the sun to set," said a man who made a trip to South Africa. "At one of the ports where we stopped the soldiers were drawn up on the parade ground before the royal palace as the sun was setting. With pomp and ceremony the ruler advanced to the front of the balcony on the second floor and majestically waved his hand toward the sun.

"One of his subjects explained to me that it was the royal sanction for the sun to set. When asked as to whether the ruler gave his permission for the sun to rise in the morning the man replied that the sun must always rise before the ruler, but that it could never go down unless the royal hand waved approval. The king who did this was the sultan of Zanzibar.

"I hardly believe that he himself was sincere in thinking his permission necessary, for he was educated for four years at Harrow college in England, but the performance was to increase the belief among the subjects in his divine origin."—Milwaukee Sentinel.

Fresh Water Pearls.

The river mussel and some other fresh water bivalves often contain beautiful pearls. In Saxony the trade in these dates from 1610 and a code of rules to regulate it. The fish are placed in prepared beds and examined every five years. From two to ten pearls are yielded by each. A similar and profitable pearl cultivation is carried on in Sweden and in other parts of Europe. The fact that grains of sand and other foreign substances that intrude within the shells are covered in course of time with layers of pearl has been taken advantage of by the wily Chinese. Opening the shells of suitable bivalves and holding them open with wooden wedges, they insert small objects of wood, stone or metal and restore the shellfish uninjured to their beds. Irritated by these pieces, the mollusks soon cover them with coatings of mother-of-pearl of bright purity and luster and thus convert them into articles of considerable commercial value.—London Globe.

Curious Notices.

The following ambiguous notice was posted up early in the last century for the information and guidance of the dwellers on certain property in the county of Kent, in England: "Notice is hereby given that the Marquis of Camden (on account of the backwardness of the harvest) will not shoot himself nor any of his tenants till the 14th of September."

A similar notice as regards ambiguity once made its appearance near Brentford in England. It read: "Ten Shillings Reward.—Any person found trespassing on these lands or damaging these fences on conviction will receive the above reward. Dogs poisoned." If the magistrates were at all lenient thereabout it might have become a profitable occupation trespassing or breaking down fences.

Got the Best of Ingersoll.

A man who was once in the plumbing business told the following story on Bob Ingersoll. "Ingersoll," said he, "came into my place and asked me to fix a sink at his house. 'How much money have you got in your clothes?' says I. 'What!' says he. 'That's what,' says I, and he went into his pocket and pulled up a roll. 'That'll do,' says I, taking it. 'Never mind about counting it. I'll do the job.'

"'What do you mean?' says he.

"'This,' says I: 'I was on a spree last night and got locked up. In the next cell to me was a thief who was caught with the goods. He sent for you, and the first thing you did was to ask him how much money he had, and you took it. I'm doing the same thing by you.'

"'Keep the money,' says he."

He Was Firm.

The comptroller of the treasury is an autocrat whose decision overrides even that of the chief magistrate of the nation. Some years ago the then incumbent of the office refused to sign a warrant for money which General Grant thought it proper to expend. "That is right," the president said. "I admire your firmness. Where your conscience is concerned never permit yourself to be coerced. You may consider yourself clear in this affair, for I shall appoint a new comptroller tomorrow."

The Rest He Needed.

"Mrs. Nagget," said the doctor, "your husband needs a rest. He must go to Europe for three months."

"Oh, splendid!" she exclaimed. "I'll be delighted to go there."

"Very good. You can go for three months after he comes back. That will give him six months' rest."—Philadelphia Ledger.

Torture of a Preacher.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church, of Harpersville, N. Y., will interest you. He says: "I suffered agonies, because of a persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies, without relief, until I took Dr. King's New Discovery for Consumption Coughs and Colds, which entirely cured my cough, and saved me from consumption."
